**STATEMENT OF FACTS FROM A PERSON HAVING FIRST HAND
KNOWLEDGE OF THE FAILURE TO REACH THE NONSIGNING INVENTOR (37
C.F.R. § 1.47)**

This statement is made as to the exact facts that are relied upon to establish the diligent effort made to secure the execution of the declaration by the non-signing inventor for the above-identified patent application before deposit thereof in the Patent and Trademark Office.

This statement is being made by the available person having first-hand knowledge of the facts recited therein.

I, Robert B. Reeser III, of 2851 Fairway Dr., Belleville, Illinois 62220 make this statement in support of the DECLARATION OF NON-SIGNING INVENTOR UNDER 37 C.F.R. 1.47(a) and confirm that I have first hand knowledge that the non-signing co-inventor, Maureen L. More specifically, at least two Federal Express packages were returned as undeliverable during the month of December, 2001. In addition, my attempts to contact the non-signing inventor via the telephone were unsuccessful as each number provided by the non-signing inventor was either disconnected or had been re-assigned to a different party.

On February 20, 2002 the application VOICE ACTIVATED DIAGNOSTIC IMAGING CONTROL USER INTERFACE and the Declaration were sent to Maureen L. Chase of 17220 Town Trail, Brookfield, WI 53045 using certified mail and included instructions for reviewing the application, and instructions for executing formal papers for the above-identified invention. The return postcard for the certified mail was signed by Maureen L. Chase on February 26, 2002, however, she again did not return the executed papers or contact this office. On March 29, 2002, I again sent a letter using certified mail requesting the non-signing inventor return the signed Declaration, however, Maureen L. Chase did not respond. Subsequent attempts to contact Maureen L. Chase of 17220 Town Trail, Brookfield, WI 53045 have been unsuccessful.
